

IN THE WORLD OF SPORT

Kehoe and Nixon Will Fight Before the Athletic Club.

A WRESTLING TOURNAMENT

Annual Picnic of the Scottish-Americans-The Foot Race—Doing Among the Ease Ballists.

BUTTE, Sept. 1.—The Athletic club today increased the purse for the Kehoe-Nixon fight to \$500, and the men signed the necessary articles of agreement this afternoon. The fight will come off on Thursday evening, Sept. 23, in the club's new quarters in the old pavilion, which will be completely refitted by that time. The Athletic club will have full control of the match, and will appoint the referee and timekeepers. Regulation California club gloves will be used. The men are very evenly matched and the contest will be a good one. The winner of it will very likely go up against Joe Sheehy, the West Point man.

Larry Gleason, Albert Killo, Jack Orwell and S. Pengelase are the latest entries for the Cornish wrestling tournament which commences on Saturday evening, Sept. 3, at Job's new amphitheater, corner of Park and Wyoming streets. In addition to the Cornish wrestling, there will be the catch-as-catch-can match between Peter Schumacher and Joe Higgins, the Irish champion, for \$100 a side and the gate receipts. There will be several interesting sparring exhibitions for various prizes.

The annual games of the Scottish-American society at Anaconda park on Sunday will be made particularly interesting through a private match between D. A. McMillan and Joe Sheehy at putting the 14 and 21 pound shot, throwing the 12 and 16 pound hammer and the 56 pound weight. These matches will come off after the open air contests are finished. It is generally thought that McMillan has only one superior in the world at putting the shot or hammer, and he is the great Donatelli. The Scottish champion, "Mac" is consequently confident of winning. He at first offered to give Sheehy one foot with the shot and five feet with the hammer, but the latter refused to accept these odds, saying that if he couldn't win even up he didn't want to win at all. It now turns out that Sheehy is an all around athlete and he has never been beaten at putting either the shot or hammer. "Mac" has come to the conclusion that in Sheehy he has found a foe man worthy of his prowess, but he has no doubt about being able to beat him.

The street car employees are all agog over a novel bicycle race, which will come off at the race track at 6 o'clock on Wednesday evening. The first event will be a maiden race in which no one will be allowed to participate who has ever straddled a wheel up to the time the race is called. The distance will be one mile and there are already eight entries. Each one of these is confident that he will be able to ride the gay and festive wheel like a professional from the turn loose, and some lively fun is expected by those who are not in it. The prizes offered are a decided departure from the conventional. The winner will receive \$20, the second man will get a leather medal and the last man in will work a week in the street railway power house for nothing. If the race is finished before dark there will be a five mile race between employees who can ride, Charles Barwick, Charles Mason and Charles Bates have already entered and there will probably be several more in the race. The first prize in this race is \$100, which is contributed by employees of the company. Cars for the race track will leave Main and Park at 6 o'clock Wednesday evening.

The entries for the sweepstake foot race which comes off at Columbia gardens on September 11, close at the STANDARD office at 12 o'clock on Saturday night. So far there are only two entries. The match is open to all workmen in Montana.

Diamond Dust.

The Missoula Democrat says that with the addition of Minnehan and Werick "the Butte team will now be a formidable rival for the championship," all of which goes to show that the Democrat has a great head.

Gatewood, who played shortstop with the old Missoula team, has signed with Phillipsburg to take the place of Kennedy. Gatewood is a good man and the fact that the Phillipsburg team is commencing to strengthen up for the finish don't look much as though it is going to drop out.

In the first game between Butte and Ogden the latter team received 10 hits off Mullane, but he kept them so well scattered that only four runs resulted. The attendance was 1,500. The score by innings was:

Butte..... 0 0 0 3 4 1 2 0 0-29
Ogden..... 0 0 0 0 3 0 0 1 0-4

Mullane pitched against the Ogden again today and the Buttes leave there to-night for Phillipsburg, where they play on Friday, Saturday and Sunday.

The Missoula team plays at Helena on Friday, Saturday and Sunday and will try hard to win all three games, with a good chance of doing it. The Butte team will endeavor to make it three straight, and with Phillipsburg in order to keep in the lead in the race. The Helena Journal says of the Missoula: "The Helena base ball team is wondering what kind of an aggregation it is that lately blew into Missoula. It had been thought that Phillipsburg could play ball, but it is evident that they were overawed by the well-footed nine from Helena. This same outfit will come over on a brief visit to Helena next Friday and endeavor to clean up Atchison park with the Helenas. Meanwhile the local ball tossers are injecting an extra amount of ginger into themselves and will be fully prepared to receive Mr. Griffith just as they did Mr. Mullane."

MR. CARROLL EXPLAINS.

A Letter Regarding the Water Supplied the People of the City.

To the Editor of the Standard:

DEAR SIR: The article headed "The Undertakers' Friend" this morning's paper and the city of Butte such injustice that I feel called upon to explain the bad taste which was noticeable in the city water yesterday, and assure the public generally that the water now being pumped by the Butte City Water Company is as pure as it is possible for water to be.

Everybody knows of the improvements which we are now rapidly pushing to completion, but until our new system is complete we must necessarily use the best temporary plan for supplying the city with water that is possible. Realizing that the old reservoir was unfit to be used, we have carried the water around it all summer from a point above the site of the new dam, now in process of construction, to a point some two miles below the old dam, where it is turned into the covered box line which used to carry the water under the old system. A pipe line is also laid from the flume at a point near the cemetery to the pump house, to be used in case of emergency.

Just before yesterday the box line which brings in the main supply got broken in some way and some of the water from the creek below the old reservoir seeped into it, mixing with the other water, caused the unpleasant taste

complained of. Just as soon as I noticed it the objectionable water was stopped and the box line repaired.

We used every precaution possible to keep the water supply pure. Four watchmen patrol the line night and day, and I am sure the water that the water now used in Butte is purer than that of 99 per cent. of the cities of the world. Our health reports show it, and I believe any physician in town will agree with me that Butte is singularly free from troubles which are usually caused by impure water. We expect to have our new pipe line completed from the new reservoir to town this month, and then there will be no possibility of such an accident as occurred Tuesday.

It is hardly fair to brand the water supply of Butte as "filthy stuff" because of an unavoidable accident which caused a slight taste for two days, when the fact is that Butte will soon have one of the best and most complete systems of water works of any city of its size in the world, and when an investigation, which is currently sought, will show that the present company is sparing no expense to make the water works a credit to the city and the present supply as pure as possible.

EDWARD CARROLL,
Sept. 1, Butte City Water Company.

NEW YORK STOCKS.

Up and Down in Market Values on the Stock Exchange.

NEW YORK, Sept. 1.—The full effects of the cholera scare was felt in the stock market today. Weak-minded holders of stocks and heavy shorts vied with each other to obtain ruling prices. A great many stop orders were uncovered by the rapidity of the decline and a downward move was accelerated. Industrials were leaders, losses on sugar at one time showing a decline of 6 1/2 per cent. Grangers and a few others were remarkably well held early, but the whole list finally gave way. The close was active. Final losses of note include sugar, 5 1/2; lead, 3; General Electric, 4 1/2; Western Union, 2 1/2; Colorado coal, 2 1/2; cotton oil, 2 1/2. Others of active list generally 1 to 2 per cent. down.

U. S. 4's registered, 114 1/2; N. Y. Central, 94 1/2; U. S. 4's coupon, 115 1/2; Oregon Imp., 9 1/2; U. S. 5's registered, 109 1/2; Short Line, 20 1/2; U. S. 4's coupon, 115 1/2; Oregon Navigation, 73 1/2; Pacific, 7 1/2; North American, 12 1/2; American Express, 20 1/2; Transcontinental, 12 1/2; Canadian Pacific, 87 1/2; Pullman Palace, 92 1/2; Canada Southern, 56 1/2; Reading, 55 1/2; U. S. 4's, 114 1/2; Rock Island, 30 1/2; Burlington, 88 1/2; St. Paul, 48 1/2; Lackawanna, 54 1/2; St. Paul & Omaha, 59 1/2; D. & R. G., 41 1/2; Texas Pacific, 33 1/2; Del. Debt on which interest ceased since January 1, 2,336,755
Funds for redemption—unredeemed checks and drafts, outstanding officers' balances, agency accounts, etc., 86,907,106
Gold reserve, 100,000,000
Net cash balance, 23,152,444
Aggregate, 281,244,682
Cash balance in treasury July 31, 1912, 121,059,286
Cash balance Aug. 31, 1892, 129,123,324
Increase in the month, 2,165,396

IN INDIANA.

Opening of the Democratic Campaign at Vincennes.

VINCENNES, Ind., Sept. 1.—The democratic campaign opened in Southern Indiana today. Ex-Governor Gray of Indiana presided over the meeting and introduced Gen. Adlai E. Stevenson to the enthusiastic democrats, and also made a short address. General Stevenson spoke for nearly an hour. He gave most of his attention to the tariff and force bill. Claude Mathews, candidate for governor, followed General Stevenson in short and enthusiastic remarks. Another meeting was held to-night at which speeches were delivered by John Bretz, candidate for congress, ex-Congressman James E. Lamb and Hon. George Fithian of Illinois.

PAN, PICK AND SHOVEL

Nuggets of Mining News Panned Out for "Standard" Readers.

IN PRIEST LAKE DISTRICT

Fire Makes the Way of the Prospector Easy—Some Rich Claims—The Hidden Treasure.

From the Kootenai Herald.

The reports that reach us from the Priest Lake mining district show that the country has as yet only been run over by prospectors, and that as careful searching is now being done, new and valuable locations of mineral deposits are being made almost daily which have heretofore existed unknown. Several of our citizens who have been in the Priest River district have returned and report that the time for the prospector to turn his attention to that section has but just arrived.

The fires of the past month on the mountains have done more to aid in the search for precious metals than could the work of armies of men. The surface of the ground laid bare as it is, with neither brush or moss to hide the deposits and float that indicate the presence of mineral, offers to the prospector an aspect tempting in the extreme.

The road to this district has been surveyed and the distance from the river to the center of the district found to be only a fraction over 18 miles. The grade is easy, and with a small outlay the mines can be brought within easy access of shipping facilities.

The Smith claims, which are the most prominent in the district at present, are at the head of the middle fork of Boundary creek, and not on Bear creek as has been reported.

About four miles to the northwest from the source of the north fork of Boundary creek, and just over the divide toward the head of Priest river, some valuable copper deposits have recently been discovered of a very high grade, and if found in quantities will add much to the mining interests of the Priest River district.

Messrs. R. L. Cheney, John Massam, Jack Cooper, Charles Gamble, Sill Fallon and A. D. Walker have been for a month past in this district, and though they report some rather unpleasant experiences, on the whole they feel satisfied with the trip. They found plenty of fish, fowl and game; also large quantities of berries and judging from the appearance of most of them, they exercised no modesty in the way in which they disposed of their edibles.

THE HIDDEN TREASURE.

Activity in the New Boulder Camp in Park County.

From the Livingston Enterprise.

George Dow came down from the Boulder Wednesday, where he has been engaged in prospecting and believes he has located a valuable lead. He states that there are now between 250 and 400 men in that camp, the greater number of whom are either employed by the companies operating them or engaged in representing their claims. The Independence company have about 40 men at work upon their mines and in the construction of a trapway 1,000 feet in length to conduct the ore from the mine to the ore house at the lower mill. This company expect to have their mill in operation early next month. The Poorman company are pumping the water from their shaft and getting the mine in shape for milling operations as soon as their electric power plant is in position, the machinery for which is now arriving at the mines. The Hidden Treasure company are also preparing to start up their mill and everything points to an exceedingly lively camp during the remainder of the season.
